I'll let you reach out to the Corps. Would you like me to find space here at EPA, or would you prefer we come over to your offices?

Tim - do you want me to contact William James at COE or will you coordinate with them?

Thanks Harry. I'll reach out to folks here and see which of these days works best. Are you still interested in looping the COE folks into this meeting as well?

Hi Tim - I will get back to you on our availability next week - Also I need to talk to you about obtaining any data that would be useful for our final rule ... specifically data on active mining related impairment of streams. Harry

DRAFT, DELIBERATIVE

Hi Harry. Greg Peck has asked if I would work with you and your staff to coordinate an opportunity for your team to meet with EPA reviewers and walk through the key changes from the proposed SPR that are being

Ex. 5 - Deliberative

I appreciate that you and your staff are working full tilt on this and other issues, so, thanks in advance for any additional time you may be able to spend with us. I am thinking a two hour meeting sometime during the week of February 22. We're happy to travel to your space, or could host at EPA, whichever is more convenient for you.

Thanks for your consideration, and look forward to continuing to work with you on this.

Good Afternoon Greg,

As per your conversation with Harry Payne, I am sending you two documents concerning Stream Protection rule. One document summarizes the selected changes from the proposed rule to the draft final rule and the other document is the latest version of the draft final Stream Protection rule with the proposed changes. If you have any questions, please contact me and/or Harry Payne. Thanks.
